

APPROPRIATION FOR ATTORNEY GENERAL SUBJECT OF DEBATE

That and Mueller Bill Hold Center of Stage in the House

(By The Associated Press)

SPRINGFIELD, Ill., March 8.—Attorney General Brundage and the Mueller bill appropriating \$1,037,249 for expenses for his office the next two years held the center of the stage in the house of representatives today. The senate contented itself with a stir over the delay of Governor Small in giving to Secretary of State Emmerson the \$75,000 appropriation bill for prosecution of the Herrin trials which became effective last Saturday midnight without signature under the ten day law.

Senator Buck, Republican of Monmouth, started the latter discussion introducing a joint resolution calling on the governor to deliver the bill. Senators Barr, Republican, Joliet, and Sneed, Republican, Herrin, immediately opposed it. Mr. Sneed saying the governor should have enough time to see what the bill meant to the people. Senator Essington, Republican, Streator, said ten days were enough time for consideration.

Objecting to the resolution, Senator Dalley, Republican, of Peoria, said he thought it proper to appoint a committee of five to confer with the governor rather than charge him with violating the constitution.

Senator Barr declared he was convinced the Buck resolution was a concerted effort "to put something on record against the governor."

Finally Senator Dalley moved a committee be appointed and the senate so voted.

Reporting for the committee later, Senator Barr said the bill had been delivered to Mr. Emmerson. Senator Dalley insisted that details of its delivery be given and said that the governor told the senators that he had no knowledge of the bill, that it probably was in the hands of his secretary, George Sutton. The committee then consisted of Mr. Sutton, according to Mr. Dalley and on learning he had the bill accompanied the secretary across the hall to Mr. Emmerson's office while he delivered it.

Meanwhile in the house, the Brundage appropriation was being thrashed out.

Charges Excessive Salaries

Representative Roe, Democrat, Vandalia, offered an amendment striking out of the Mueller bill an item giving \$70,000 for dissolution of defunct corporations, attacking it as "an absolute steal of the people's money." Excessive salaries, he said, were being paid lawyers and assistants of Mr. Brundage.

Among two persons in a long list read by Mr. Roe were Representative Sonnemann, Republican of Carlinville, who was declared to be on the payroll for \$2,500 a year, and Harold S. Ickes, Progressive leader of Chicago, who was said to receive \$4,000 a year in two or three lump sums. Of Mr. Ickes the Vandalia member asked "what has he ever done for the people?"

Several representatives, mostly Republicans, but including Michael L. Igoe, Democrat, Chicago, vigorously defended the item.

W. L. Pierce, Republican, Belleville, and R. F. Little, Republican, Champaign, protested the "hampering of Mr. Brundage and asserted the money was for legitimate purposes."

Mr. Igoe said the attorney general's force in Chicago was too small already and was burdened with work.

Representative Smejkal, Republican, Chicago, moved that the Roe amendment be laid on the table. On the roll call on the Smejkal motion party lines were disregarded, the vote standing 51 to 51. Smejkal withdrew his motion and the matter was laid over until Tuesday. The house then adjourned.

Senator Forrester, Republican, Taylorville, introduced a bill providing for a constitutional amendment to reappointment of the state. It bases representation on the 1920 population exclusive of aliens. There would be 51 senators, 19 of whom would be from Cook county and 172 representatives.

A bill introduced by Representative Rausch, Morris, and referred to the judiciary, provides methods for submitting constitutional amendments to the people.

STEEL COMPANY ENTERPRISES IN RECEIVER'S HANDS

Chain of Stores Into Which
Public Poured \$20,-
000,000

(By The Associated Press)

BUFFALO, March 8.—Twenty corporations comprising the Leonard R. Steel company enterprises into which the public has poured more than twenty million dollars in the last three years, was placed in the hands of receivers today by Federal Judge John R. Hazel. Auxiliary receivers will be named for every store and branch of Steel corporations in this and other states.

The receivership, officials of the company said, is a friendly one and designed to avert a crash of the entire financial structure by the hostile attitude of certain stockholders and creditors which, it was declared, had become apparent during the last 24 hours.

Among the principal companies named in the receivership proceedings are the L. R. Steel Company, Inc., the parent organization; L. R. Steel Company, Ltd., operating chain stores in Canada, and the Steel Department Stores holding corporation of Delaware and the Steel's Department Stores, Inc., with branches in 17 states, including Illinois.

In addition to department stores the corporation owned or controlled restaurants and cafeterias. A statement issued last October indicated ownership of about 90 stores, ten of which have since been sold or discontinued.

No statement of present assets and liabilities is available, auditors at work on the finances of the various corporations not having completed their work. The petition submitted to the federal court placed the assets of the twenty corporations at about \$12,000,000.

STATE BOND ISSUE ROUTE NUMBER 40 HAS BEEN LOCATED

Announcement is Made by
the State Highway
Department

(By The Associated Press)

SPRINGFIELD, Ill., March 8.—Location of state bond issue route 40 between Sterling and Mount Carroll and a portion of route 43 between Easton and Mason City was announced today by the state highway department.

Route No. 40 will start at the north line of Whiteside county then north to the village of Millerdeville, then north and northwesterly approximately parallel to the Chicago, Burlington & Quincy railroad to the north and south highway then north to Carroll county state aid route No. 5, then north and northwesterly following Route No. 5 to an intersection with state aid Route No. 2, then west to the city, Mount Carroll.

A four mile section of Route No. 43, which had not been located, will run from point four miles north of Easton south and northeasterly to Route No. 6, then east following Route No. 6 to the north limits of Mason City.

LAND OWNERS WILL OPPOSE M'CORMICK BILL

(By The Associated Press)

SPRINGFIELD, Ill., March 8.—Land owners controlling 400,000 acres along the Illinois river meeting here today, decided to oppose the McCormick bill in the United States senate, providing for construction of a nine foot channel lake-to-gulf waterway.

"They voted to oppose any effort to drain a greater amount of water from Lake Michigan than is now being used for the Chicago drainage district and to work for a reduction of this amount."

Their contention was that flow of water from the lake endangers their lands thru floods. Testimony the land owners will present at hearings on the bill to start in April at Beardstown, Peoria, and Chicago was assembled.

EARL OF BALFOUR DELIVERED REPLY TO GEORGE HARVEY

Takes Unusual Care Explaining Note of Inter-Allied Debts

(By The Associated Press)

LONDON, March 8.—The Earl of Balfour today delivered his reply to the strictures Ambassador Harvey passed on his famous note to the allies on the subject of inter-allied debts. Lord Balfour spoke in the calm and almost unmoved atmosphere customary in the house of lords and when his statement ended none of the peers offered any comment and the house adjourned.

Lord Balfour took his usual care in the explanation fortifying himself with copious notes and thus signalling his recognition of the delicacy of the task confronting him and he dealt gracefully and tactfully with the subject. Reminding the house that when the note was originally prepared the house was dealing with the most difficult the most dangerous and the most anxious question of international indebtedness he quoted the passage of Ambassador Harvey objected to as follows:

"The United States insisted, in substance, if not in form, that the allies were to spend the money it was only on our security that they were prepared to lend it."

He declared that he could find nothing either misleading or obscure in the passage.

He attributed the whole trouble first to the difference of view between America and England regarding how far financing the war should be a great cooperative effort and second, to the fact that the United States government when it came into the war did not see its way to adopt the British suggestion that as we had borne the main burden of financing the European allies during the early years of the war, America who came fresh into the great struggle might relieve us of that part of our difficulties.

Would Have Been No Controversy

Balfour pointed out that had America adopted this suggestion there would have been no American loan to Great Britain and many controversies would have been avoided and international arrangements would have followed another course. He repudiated any idea of questioning the American decision, but said it involved Great Britain in continuing to bear double burden.

Thus reviewing the whole circumstances of the case in order to justify the tenor of his note, Lord Balfour admitted that the transactions in question were not inaccurately, tho it must be confessed were imperfectly summarized in the phrase to which objection was made.

He then passed to what was perhaps the most important part of his explanation which seemed to seek to find some justification for Ambassador Harvey's criticism in the difference of view held on both sides of the Atlantic—the American view that financial arrangements between partners of the great war isolated undertakings which he has assumed Mr. Harvey regarded as necessary "if the sanctity of contracts was to be maintained" and which, in the ambassador's view "will confer actual benefits on the debtor himself by proving his general credit."

Lord Balfour concluded with an expression of his own less commercial view and a final tribute to the fact that America had given effect to her own view in a manner less likely to injure the happy relations between the two peoples.

MODIFY POLICE ORDERS IN CHICAGO

CHICAGO, March 8.—Because south side streets in the old "lunch" district were "beginning to look like police drill halls at roll call" police orders for the stationing of uniformed watchers at the front and back doors of all suspected disorderly houses were modified today.

In blocks where several suspected places are being watched the individual guards have been replaced by patrols who walk back and forth over their limited beats.

Commanding officers reported to Chief Fitzmorris today that 102 houses, apartmentes and hotels are being guarded.

The first test of Fitzmorris' authority to maintain guards at the doors of suspected resorts will be made tomorrow morning when Judge George Rush hears the application of John H. Artie, a negro for an injunction to restrain the police from picketing his house at 3220 South Michigan Boulevard. Several other injunction applications are pending.

CHICAGOAN LOSES
\$75,000 IN DIAMONDS

Sara Sota, Fla., March 8.—The winter residence of R. C. Sota of Chicago was entered and robbed of \$75,000 worth of diamonds and other jewels some time last night. Authorities said tonight. No clue has been discovered.

Springfield, Ill., March 8.—Col. C. R. Miller of the Department of Public Works and Buildings today announced that the original decision of Route No. 3, which placed the route on the north side of Rock River instead of the south side, had been confirmed. The original decision was made two years ago.

Great Falls, Mont., March 8.—The Montana State Federation of Labor in its 26th annual convention here today adopted endorsing the conduct of the striking coal miners of Herrin, Ill., during the riots there last year, and extending sympathy and wishes for "speedy acquittal" of those miners now being tried for murder at Marion, Ill., in connection with the riots. The resolutions were signed by officials of the federation.

St. Louis, March 8.—Prince Cessario, Italian ambassador to the United States arrived here today and made inspection of the Italian quarter of the city. He stated he was touring America to ascertain living conditions of his countrymen. He will leave for Springfield, Ill., tomorrow.

St. Louis, March 8.—Bishop Daniel S. U. Tuttle, 66, presiding bishop of the Protestant Episcopal church in America is confined to bed in his home here with grippe. It was announced today. He is said to be the oldest Anglican bishop in the world and has been head of the Missouri diocese since 1886.

Washington, March 8.—C. H. Huston, of Tennessee, assistant secretary of commerce, is expected to resign in the near future to accept the presidency of the World Commerce Corporation, a new oil company now being organized in New York and Pittsburgh for the purpose of acquiring control of oil lands in Venezuela and Central America and establishing a shipping service to market the product.

JUROR'S WIFE ILL; HERRIN TRIAL IS ABRUPTLY HALTED

Juror Barns Taken to Bed-
side of Wife, Others
Locked Up

(By The Associated Press)

MARION, Ill., March 8.—Attorneys for the prosecution and the defense prepared tonight for the resumption of the second Herrin riot trial which was halted suddenly today by the illness of the wife of a juror, Nathan Barns, a farmer living in a remote section of the county.

Barns was taken to the bedside of his wife by a deputy sheriff last night the other eleven jurors being held in close confinement in their quarters in the jail. Today they were given the freedom of the court room where the trial is being held and spent the day reading, writing and watching the crowds on the square below.

When the trial is resumed the prosecution will continue its introduction of testimony against the six defendants including Hugh Willis state board member of the Illinois Mine Workers and president of district No. 10 who are charged with the murder of one of the twenty-two non-union men slain during the riots of last June.

ANTI-HANDBOOK BILL IS PASSED

(By The Associated Press)

LANSING, Mich., March 8.—The senate late today, by a unanimous vote, passed an anti-handbook bill after refusing to eliminate a section designed to prohibit publication of race track odds in daily newspapers and other publications. The bill now goes to the house where, it was said, a majority is pledged in favor of it.

The measure prohibits the publication of dissemination in any manner of any information concerning the "making and laying of wagers, or the selling of pools or evidences of betting odds on any race, contest or game."

An opinion of Andrew Dougherty, state attorney general holds the provisions of the bill to be constitutional. The freedom of the press, which it was charged in some quarters was being abridged is not affected by the measure, according to the Dougherty ruling.

HEAD OF BROKERAGE FIRM TO BE ARRAIGNED

Chicago, March 8.—Fred Kriebel, head of the bankrupt brokerage house of Kriebel & Co., which failed March 7, 1922, with liabilities estimated at \$5,000,000 will be arraigned tomorrow in federal court charged with using the mails to defraud. SENATOR JOHNSON ASSAILS PROPOSAL OF THE PRESIDENT

Says it is First False Step Toward League of Nations

(By The Associated Press)

NEW YORK, March 8.—President Harding's proposal that the United States accept membership in the permanent court of international justice was assailed here tonight by Senator Johnson, Republican of California, a leader of the senate irreconcilables, as a first "false step" toward membership in the league of nations.

Speaking before the Bronx board of trade he declared the demand for American participation in European affairs was based on no logical foundation but emanated from a "betogged international intellectuality or a hysterically perverted imagination."

"Still the cry continues, the propaganda persists, for our entry into Europe," said Senator Johnson. "It takes now one form and then a totally different one and has run the gamut of possible international organizations. Its advocates appeal in turn with equal fervor to our altruism and our cupidity."

"The demand that America join the league of nations is succeeded by the beautiful word picture of an economic conference and the great part the moral weight of the United States might play in a topsy turvy world. And now again our old leaguers, wary from defeats in dulcet invite us to join the international court."

"An international court which substitutes the rule of law for that of power and the domination of justice for armed might has a sonorous and an appealing sound. To argue that just as courts determine issues between individuals it is local there should be an adjudication of differences between nations by similar courts at once strikes a sympathetic chord."

"But what is not said and what is not understood is that the so-called international court is no court at all as court is commonly understood. It is little more than what exists with our arbitration treaties. It does not argue that just as courts determine issues between individuals it is local there should be an adjudication of differences between nations, nor can it, of itself, assume jurisdiction between nations. It is a mere arbitral tribunal to which nations may submit disputes if they see fit and only those questions, which the parties themselves agree to submit, can be heard at all. Great Britain, France, Italy and Japan have refused to submit to any compulsory jurisdiction reserving to themselves to decide when and whether any controversy in which they are interested shall come before the international tribunal."

Thus the whole heralded court which is to prevent war in the future is denied in its inception by the great nations of the earth the right or the power to act upon any questions which may be the breeders of war without the consent of these nations themselves."

CONGRESS PRAISED BY FARM BUREAU

(By The Associated Press)

CHICAGO, March 8.—Comments were extended today to the congress just adjourned by the American Farm Bureau Federation in a statement issued from its general headquarters here declaring that congress has done more for the benefit of American agriculture than any other session in history.

Farm measures enacted here between April, 1921, and March, 1922, were summarized as nineteen separate benefits to agriculture. These included intermediate farm credit for such terms as six months to three years; increase of amount borrowable on farm mortgages from cooperative federal farm loan banks from \$10,000 to \$25,000; supervision of the packing industry; supervision of grain exchanges; legalized cooperative marketing; provided to market highway program; increased working capital of federal farm loan system; revised tax schedule, reducing surtax; limited immigration barring hundreds of thousands of undesirable aliens; prohibited manufacture and sale of filled milk; created a butterfat standard; appropriated for extension of credit to northwestern farmers suffering from crop failures; placed agriculture reservation on federal reserve board; re-created war finance corporation and enacted emergency tariff and the permanent tariff.

LIFTS EMBARGO ON EAST BOUND FREIGHT

Chicago March 8.—The Pennsylvania railroad today lifted the general embargo of east-bound freight for all leading points west of Mansfield and Columbus. O. The embargo had been in effect since last September 30 and its cancellation was made possible according to officials by the large amount of freight removed recently.

PURPLE PARROT LOSES ITS PLUMAGE

Chicago, March 8.—The annual burlesque number of the "Purple Parrot," a student publication of Northwestern University appeared today a week late and with the table of contents gracing the front cover instead of the usual cover drawing. The cover design, an actress in scanty costume and a high kicking pose, had been eliminated at the suggestion of the faculty.

MOOREHOUSE GRAND JURY CONTINUES ITS PROBE OF SLAYINGS

Nothing New in Way of Testimony Developed
Yesterday

(By The Associated Press)

BASTROP, La., March 8.—The Morehouse parish grand jury continued today its investigation of the kidnaping and slaying of Watt Daniel and T. F. Richard, the witnesses who appeared including "Tot" Davenport, made captive with the two men near here last August 24. Of the five men made prisoners by the masked band, Davenport was the only one unharmed. He was questioned and permitted to return home while J. L. Daniel, father of Watt and W. C. Andrews were questioned and flogged before being released. Two bodies identified as those of young Daniel and Richard were found in Lake Lafourche four months later.

All of today's witnesses with the exception of J. W. Norsworthy were among the persons stopped on the Mer Rouge-Bastrop highway August 24. Their testimony at the open hearings in January virtually was along the same lines. A masked party of approximately fifteen men lined both sides of the highway a mile from Bastrop. All wagons and automobiles bearing persons returning home from a baseball game and barbecue at Bastrop were halted and inspected. Daniel, his father, Richard, Davenport and Andrews were made prisoners, and just at dusk were placed, bound and gagged, in a small motor truck and whisked away. Three of the men were released at Colistone eight miles from here later in the night.

Norsworthy testified at the open hearing that he had been a member of the Ku Klux Klan but that not liking some of its methods, he had asked that his name be dropped from the roll.

He said he had attended two meetings. He told of receiving instructions from Captain J. K. Skipwith, exalted cyclops of the Morehouse Klan to assist in taking a white man and two negroes to the Arkansas state line after whipping them and to order them not to return to the parish. He refused to obey the order, he said.

At the hearing Norsworthy identified a black hood as the "railing" regalia of the Klan, declaring it was worn at night, but had been used both day and night. The men who kidnaped Daniel and Richard, it was developed from other witnesses were black hoods. Mrs. B. D. Carlisle, who was among those halted on the road and who had testified that she had recognized "Newt" Gray as one of the masked men, was among today's witnesses. At the hearing she said a strange woman approached her on the streets of Bastrop several days after the kidnaping and asked her if she had recognized any of the masked men and told her not to say anything about it. She testified that the second man she recognized was known to her only as "Blacksmith" Smith.

GIRL'S TEMPERATURE STILL RUNNING HIGH

(By The Associated Press)

ESCANABA, Mich., March 8.—With the start of the nineteenth day of her temperature of 114 degrees or better, Miss Evelyn Lyons, 30, chatted freely with her friends at her home here. The young woman who has astounded her medical profession by her "excessive" fever today seemed to be resting better her pulse beat more normally and her face still retained its clear look.

The thermometer showed no decrease in its reading, according to Dr. Harry Defnet's report. To reassure doubters in regard to Miss Lyons' remarkable temperature Dr. Harry Defnet, attending physician and Dr. G. W. Moll, secretary of the Delta Medical association today issued signed statements to The Associated Press.

"No mistake has been made," Dr. Defnet said. "The reports are accurate and taken in every way known to medical science and the temperature has been 114 or more for 16 days. The girl is rational in every respect and has control of all her faculties."

"I found the temperature to be the maximum of a thermometer or more which I estimate at 114 or more," Dr. Moll said. "The patient is rational. The odd case is not exaggerated and is true to the letter."

AMERICAN WOULD BE OFFICIAL LANGUAGE

St. Paul, Minn., March 8.—"American" would be made the official language in Minnesota schools and elsewhere under a bill introduced today. Wherever the word "English" is used with reference to language or the study of it, the word "American" would be substituted.

OLD FRIEND OF UNCLE JOE DEAD

Dayton, O., March 8.—John A. McMahon, 90, who served three terms in congress beginning in 1874, died at his home here tonight following a long illness. Mr. McMahon was a warm friend of "Uncle Joe" Cannon. He was born in Frederick county, Maryland, Feb. 19, 1833.

INCREASED SALE IS EXPECTED OF FARM MACHINERY

I. H. C. Anticipates Increase of Business Over That of 1922

(By The Associated Press)

CHICAGO, March 8.—Improved business was anticipated in 1923 altho no profit was derived from the sale of farm machinery in the United States during 1922, according to the annual report of the board of directors of the International Harvester company, transmitted today to the stockholders, by Alexander Legge, president. Net profits for the year ending December 31, last, were \$5,540,767, compared with \$4,149,918 for the preceding year.

Failure to realize a profit on the machinery business in the United States last year was attributed to conditions in American agriculture altho cash dividends of seven per cent on the preferred stock and five per cent on the common stock necessitated a reduction of \$3,522,000 in surplus compared with a reduction of surplus of \$5,178,000 in 1921. Surplus in December 31, after deduction of dividends was \$52,201,672.

The French and German factories have been fully operated, a considerable portion of the output of the German factories having been exported to other European countries, the report said. The factory in Sweden was operated only part time. The Russian factory still is operating in a small way but sufficient for present limited demands, it was added.

Current assets on December 31 last were \$146,511,000 compared with \$179,554,000 in 1921, while accounts receivable increased \$9,525,000 and inventories decreased \$26,275,000 at the end of 1921.

The ratio of current assets to current liabilities at the close of 1922 was approximately 8 to 1 compared with 6 to 1 at the end of 1921.

Average Crop Yields

"Crop yields were fully up to the average and there was some advance in the price received by the farmer for his produce," the report said of 1922. "In the United States the greatest improvement was shown in the cotton and wool-producing sections; there being little gain in those territories that raise grain."

"In countries that import foodstuffs the changed conditions brought about by the war, particularly the higher cost of transportation, have improved the condition of the farmer as compared with those engaged in other industries as the increased cost of importing foodstuffs tends to give the farmer a better relative price than he obtained before the war."

"In some food importing countries the price of farm produce has been increased even more than the cost of labor and manufactured goods. The reverse is true in countries exporting foodstuffs. As this exportable surplus largely determines the price the farmer gets for his produce it follows that increased cost of getting his grain to market reduces the amount the farmer receives."

"The volume of business now written for 1923 justifies the hope of improvement for this year."

The most difficult problem confronting this industry today is the tendency of the so-called secondary inflation to raise the cost of labor and material to a point where the farmer cannot afford to buy the produce."

COURT REFUSES SUPERSEDAES WRIT

(By The Associated Press)

CHICAGO, March 8.—Federal Judge Francis E. Baker, in the circuit court of appeals today refused a writ of superadeas for George McIntosh of Bloomington, Ill., recently sentenced at Springfield to fifteen years' imprisonment on a charge of selling drugs at Bloomington.

His attorney presented an assignment of errors in his application and bond for McIntosh, William B. Schroeder of Springfield, assistant United States district attorney opposed the motion and told the court that McIntosh had threatened the lives of several persons who were witnesses against him.

Judge Baker said he took into consideration the alleged threats in denying the action.

The motor car owners of the state have reason to think that they need organized representation at Springfield during the general assembly session. Thus far at the present session twenty-even bills have been offered which affect motor traffic.

A motion picture producing company has recently been sued on claims aggregating less than \$3,000 and it is said to be insolvent. It is no wonder if the salaries paid the stars and underlings in filmdom are real instead of phony.

The usual opposition has appeared to the gun totting law which is pending before the Illinois legislature. The plea is made that the law will not be enforced and that conditions will be worse instead of better. So many crimes are attributed to the fact that revolvers are carried promiscuously that public sentiment must certainly support a measure to control the custom and a law with even a fair measure of public sentiment behind it can be enforced.

If Governor Pinchot keeps up his record, Pennsylvania will have various systems to which the natives may point with pride. The governor proposes, among other things, that the state must absolutely live within its income. That same rule must some day apply to cities, but cannot come until either greater economy is exercised in expenditures or cities are given authority for the levying of greater taxes.

Stories multiply about the millions of lives that will be lost in Russia this year because of the scarcity of food. Abundant evidence also comes to show that those in authority there are ex-

porting grain in order to get the revenue. "Let the people die" would be a fitting slogan for Thorsky and his associates for starving millions seem to amount to very little to those leaders of thought.

Senator LaFollette's warning that the big oil companies will, unless curbed increase the price of gasoline to \$1 a gallon within a few years is so absurd that the argument loses weight. There may be evidences that the oil industry is controlled by one or more big producing companies, but thus far the evidence has not been arrayed to prove to the public that the price charged represents an abnormal profit for the producer.

Some men who pay attention to public affairs are worried from time to time about the actions of certain leaders in Washington, who attack the supreme court. However, their fears can be quieted somewhat if they but turn back the pages of American history, as Charles Warren of Boston has done in a book on the subject.

Mr. Warren shows that there have been rabid criticisms of the supreme court way back even to the time that Chief Justice Marshall held unconstitutional a state tax upon the bank of the U. S. From that time on down criticisms have followed court opinions that have been particularly objectionable to some class or section of the country.

DO YOU KNOW IT?

(NEA)
Astronomers announce that an explosion, probably the greatest in our history, took place Feb. 27 out among the stars. Beta Ceti, a star of the "second magnitude" or brilliancy, suddenly flamed up and became one of the brightest stars—technically known as "first magnitude."

What the astronomers really mean, is that the explosion took place 80 years ago and that it became visible to us Feb. 27.

Beta Ceti is so far away from our earth that it takes light, 80 years, when we look at this star, we see it as it existed in 1843. —What is it like now? No way of knowing until 80 years hence, in the year 2023.

A man 10 feet from you looks up and sees you at a certain instant. Farther away, 100 feet behind him, another man looks up at identically the same time. But the second man sees you a fraction of a second later than does the first man, since it takes the light waves a fraction of a second longer to reach him. The fraction is infinitesimally small, of course. It increases with distance.

You've noticed a similar phenomenon if you ever looked out at sea and saw smoke come from a cannon before you heard the report of the explosion. The explanation here is that light waves travel faster than sound waves.

When you look into the sky at night, you see the stars not as they are today but as they were at various times in the past. The time depends on their distance.

Suppose there were people living on Beta Ceti.

There couldn't be, as we understand things, because of the intense heat up there. But just suppose. And suppose, also, that an astronomer on Beta Ceti has a telescope powerful enough to see what's going on here.

Since it takes 80 years for light waves to travel between our earth and Beta Ceti, that astronomer is seeing what happened on earth 80 years ago. It would be the year 2023 before he could see what is happening here today.

Apply the same idea to more distant stars, and people on them would be peering thru their telescopes today watching the Battle of Waterloo, the building of the pyramids, funeral of King Tut—and so on, according to distance.

This is what Einstein has in mind when he says that time is relative, not fixed and absolute. If you ponder the idea, it will impress you that in the universe there is not really any present, past or future. All is an Eternal Now. Time is a delusion of our senses. A light-wave-image, of everything we do, travels on forever into space. All is eternal.

WE GETAWAY

There were bags and trunks and cases stowed about in many places.

There were packages all wound around with string. But the sturdy little flivver carried all that we could give her.

Tho the load was tensely straining every spring.

So we started on our humming and the motor smoothly humming.

And the chill of northern winter in the air;

We had heard the southland calling with a wizardry enthralling.

And we hit the trail that leads the rover there.

It was raining, snowing, sleeting, and the elements kept beating.

On the windshield and the curtains and the top;

But it only helped remind us that we soon would leave behind us.

All this ice and snow and dreariness and slop.

So we skidded and we splattered on our way and nothing mattered.

Save the fact that we were going far away.

From the land of breezes frigid where your hands and feet grow rigid.

To the sunny land of everlasting May.

Every fiber of the flivver seemed delightfully to quiver.

With the gypsy joy of roving on the road;

And the motor of our Lizzie kept continuously busy—

We have started her to going —and she goes!

SHE knew somehow what the trip meant; and altho our camp equipment

Caused the lookers-on to cachinate and scoff,

Lizzie plugged along quite happy at a speed exceeding snappy—

We were started, we were going, we were off!

Fellowship of Prayer

Daily Lenten Bible reading and meditation prepared for Commission on Evangelism of Federal Council of Churches.

FRIDAY
Love Empowered by Prayer

"Teacher, I brought unto thee my son." Mark 9:17.

Read Mark 9:14-29.

"The Crowning achievement of a man on earth is to make the word 'father' so rich in memories and associations, that it brings God nearer to his children."

MEDITATION: Many modern parents are apt to be more anxious about their children's physical health, education, or even their place in society, than about their religious training.

HYMN:
Spirit of God, descend upon my heart;

Wean it from earth; thru all its pulses move;

Stoop to my weakness, mighty as thou art.

And make me love thee as I ought to love.

PRAYER: O Heavenly Father, shed forth thy blessed spirit richly on all the members of this household.

Make each of us an instrument in thy hands for good. Purify our hearts, strengthen our minds and bodies, fill us with mutual love. Let no pride, no self-conceit, no rivalry, no dispute ever spring up among us. Make us earnest and true, wise and prudent, giving no just cause for offense; and may thy holy peace rest upon us this day and every day, sweetening our trials, cheering us in our work, and keeping us faithful to the end; thru Jesus Christ our Lord. Amen.

Mr. and Mrs. Jerome Rollins celebrated in honor of the Event at Their Home 412 South West Street.

Thursday marked the seventeenth anniversary of the marriage of Mr. and Mrs. Jerome Rollins, and they observed the occasion with a reception given at their home, 412 South West street.

Open house was kept during the afternoon and evening. The hours during the afternoon were from 2 to 5 o'clock and the evening hours from 7 to 9 o'clock. During these hours hundreds of their friends called and paid their respects and wished them many more returns of the day.

Mr. and Mrs. Rollins have resided in Jacksonville ever since their marriage. Mrs. Rollins being a native of Pittsfield. Thru the years they have made many friends and are highly respected in the community. Their popularity was attested yesterday by the receipt of many gifts which reached the home during the day.

The Rollins home was tastefully decorated for the occasion cut flowers and ferns being used effectively thruout the various rooms. Dainty refreshments were served.

Those assisting in receiving the guests were: Mrs. William Trip-lott, Mrs. Arthur Corbin, Mrs. Samuel Harris, Mrs. Marie Mallory, Mrs. C. H. Freeman, Mrs. Jackson, Mrs. Reed, Mrs. Hazel Belle Walton, Miss Arsh Mallory and Miss Merriweather.

Out of town guests were: Mrs. Harriet Williams, St. Paul, Minn.; Miss Ruth Smith, Griggsville; Mrs. Louise Cook, Kent, Mich.; Miss Lucille Watts, Pittsfield.

CLAY CLARK PASSED AWAY LAST NIGHT

Well Known Colored Citizen Dies of Pneumonia After Illness of Several Weeks.

Clay Clark, a resident of Jacksonville practically all his life, died at the family home, 423 South West street at 7:15 o'clock Thursday evening. Mr. Clark had been ill of pneumonia for several weeks and during the last few days his condition had been regarded as critical.

Decedent was one of the city's most highly respected colored residents. He was about 70 years of age at the time of death.

He was united in marriage in this place and is survived by his widow and one son, Clarence Clark, of Benton Harbor, Mich. who was at his bedside when the end came. He also leaves one sister, Mrs. Hattie Mosely, of this city and a number of nieces and nephews.

For many years Mr. Clark followed the transfer business and was engaged in that work when his last illness came. He also was a member of the fire department, being employed as a driver during the administration of John R. Davis.

The body was removed to the mortuary of J. C. Reynolds and prepared for burial. The time of the funeral will be announced later.

MATRIMONY

Day-Nunes.

Dr. J. U. Day and Miss Ethel Nunes, both of this city, were united in marriage recently at St. Louis, according to a message received from that city yesterday. Dr. and Mrs. Day will return to the city after a short wedding trip.

The bride is the daughter of Tony J. Nunes, 827 East Independence avenue. Dr. Day is a well known physician of the city, having offices on East State street. The couple will reside at 918 East Independence avenue.

Bowen-Rieman.

Ralph Bowen and Miss Olive Rieman, both of this city, were married at 2 o'clock Wednesday afternoon in Kansas City, at the residence of Rev. J. W. Moore, pastor of the Linwood M. E. church. They left Wednesday evening for their home in Portland, Ore.

The bride is the daughter of Mr. and Mrs. Frank Rieman, 123 City Place, and has a wide circle of friends in this city. Until a short time ago she was employed in the offices of the Cloverleaf Casualty company.

The groom is the son of Mr. and Mrs. J. W. Bowen, 403 Lincoln avenue. He has spent most of his life in this city and is a graduate of the local schools.

R. B. PEARCE TO BE WHITE HALL POSTMASTER

Many Jacksonville people will be interested in knowing that R. B. Pearce is soon to become postmaster of White Hall. Before the senate adjourned the appointment of Mr. Pearce was confirmed and the postmaster elect is expected to receive his commission at an early date.

Mr. Pearce has long been active in the political and business life in White Hall and is well qualified for the position to which he has been appointed.

SCHOOL FOR DEAF TEACHERS TO GO TO SPRINGFIELD

Many members of the faculty of the State School for the Deaf will be among the teachers in attendance at the state convention in Springfield today. School for the Deaf instructors will leave this morning at 7 o'clock in one of the buses of the Jacksonville-Springfield Transportation Co. Some of the number will return late tonight and others will remain until Saturday.

LITERBERRY CIRCLE TO MEET HERE TODAY

Miss Elizabeth Martin to be Hostess to Circle Members this Afternoon.

The regularly monthly meeting of the Ohio Circle of Literberry Christian church will be held this afternoon at the home of Miss Elizabeth Martin on Webster avenue. Miss Martin formerly lived in Literberry and although this city is now her home she still retains membership in the circle.

The program of the afternoon will include two papers. One will be presented by Mrs. W. W. Young on "Industry and the Gospel of Labor" and the other by Miss Georgia Lifer, whose theme will be "Social Conditions and Conservation of Life." The topic of the afternoon will be "Africa." The members will respond to roll call by quoting a favorite Scripture verse. A short business session will come after the program and later there will be a social hour and refreshments.

ISBEN'S "DOLL'S HOUSE" READ BY MISS POWELL

Splendid Rendition of Famous Play Given in Music Hall of Illinois Woman's College Thursday Evening.

Despite many counter attractions, music hall at Illinois Woman's college was well filled Thursday evening to hear the expressionist recital given by Miss Janette Powell of the faculty of the department of expression of the college.

Miss Powell had selected for her offering, Isben's Doll House. It is a most ambitious undertaking and one that taxes the talents any reader to the utmost.

A splendid interpretation of the play was given by Miss Powell who held the undivided attention of her audience for an hour and a half. The reading of Miss Powell showed careful preparation and also revealed a clear insight into the various characters of the play.

It was one of the best readings of the winter and was thoroughly enjoyed by those fortunate enough to be present. It is hoped Miss Powell may give other programs before the close of the school year.

Remember there will be only Friday and Saturday remaining for the Bazar of House Dresses and Aprons, at Fannie James, 203 W. College St.

CONFER 2ND RANK ON 6 CANDIDATES

Favorite Lodge of K. of P. Puts on Work at Meeting Thursday Night—Big Class to Receive Rank of Knight.

Six candidates were given the rank of Esquire at the regular meeting of Favorite Lodge No. 378, Knights of Pythias, at Castle Hall. Those who took the work were: Harold McDougall, Harry Simmonds, Leonard Lawrence, F. M. Hopper, L. L. Burton and Lloyd Hall.

The lodge also received three new applications for membership. There are a large number of candidates yet to receive the second rank, and then it is probable that a very large class will be given the third rank, and the occasion will be made something of an event in the lodge.

Carpenters and decorators are at work redecorating some of the rooms on the third floor of the Pythian quarters, and the various rooms will soon present an attractive appearance.

FARM BUREAU HOLDS MEETING AT FRANKLIN

Series of Community Gatherings to Be Held Prior to Membership Drive—Session at Waverly Today.

A meeting under the auspices of the Morgan county farm bureau was held in the movie theater at Franklin Thursday afternoon. This was the first of a series of such meetings which are planned for coming weeks in preparation for the membership campaign which is to be carried on through the county by the farm bureau and the Illinois Agricultural association.

The program of the afternoon opened with a two-reel moving picture, "Forward Farm Bureau." This was followed by brief addresses by F. M. Higgins of the organization department of the Illinois Agricultural association, and George B. Kendall, the county farm adviser. A comedy film was then shown, concluding the afternoon program.

The meetings are being held for the purpose of acquainting the various communities with the work of the farm bureau and of the Agricultural association. It is the belief that if people understand more thoroughly the scope of the work of these organizations that the membership lists would be materially increased. Solicitation for new members is not to begin until after the inauguration of the campaign the latter part of this month.

A similar meeting is to be held at the opera house in Waverly at 2 o'clock this afternoon. Still other meetings are planned for the near future and the time and place of such meetings will be duly announced.

WORDS OF COMMENDATION FOR WOMAN'S COLLEGE.

Dr. Dan B. Brummitt, editor of The Epworth Herald, recently spent several days at Illinois Woman's college. The following paragraph in the last issue of the Herald tells what Dr. Brummitt thinks about the college:

It is not so well known as it should be that our church has at Jacksonville, Ill., a truly remarkable college for women.

Founded as a seminary in 1846, the school, which is now Illinois Woman's college, is a triumph of faith, courage, persistence and devotion. It has become a standard college, with no preparatory department, and its work is in all respects up to today's solid educational requirements, plus unusual opportunities in music, art and other special studies.

The exercises of the Day of Prayer for colleges, in the second week of February, illustrated the admirable way in which this college combines academic thoroughness with self-respecting and direct ministry to the spiritual life of the students.

A speaker was invited to spend three days at the college. Twice a day, on the two days before the special Day of Prayer, short assembly periods gave opportunity for the presenting of the world's claim on youth. Fireside prayer groups gathered in the great social room just before the retiring hour.

On the Day of Prayer itself, classes were suspended after 10 o'clock in the morning. Then followed class and faculty prayer meetings and a formal service in the chapel. An evening address on the same day closed the exercises of the occasion.

It sounds simple enough in the telling, but it was all so shot thru with cheerful seriousness, with frank directness, and with genuine Christian feeling that one observer, at least, was moved to the heart to watch it all.

There were informal interviews with such students as cared to ask for them, and many did. What these women students said about their hopes, purposes and faith would have cured any but a hopelessly incurable religious pessimist of his forebodings concerning the young womanhood of today. All that an intelligent young woman needs is such influence as the Woman's college affords so abundantly.

No student was asked to spend during the three days more than two hours away from classes and in special observance of the special season. No student did spend so far as the observer could discover, more than three hours away from her regular occupation of study, rest and recreation.

And yet over all the place was an atmosphere of genuine religious concern. The ideal of the college, "Knowledge, Faith, Service," though not tiresomely stressed was clearly discoverable in all that was said and done. The seniors looked forward to a life-work which would be, as a matter of course, a thing of service.

Illinois Woman's college, like all great institutions, is the lengthened shadow of a person. President Joseph R. Harker has many helpers, from Mrs. Harker herself, the faculty, the board of trustees and the college's benefactors, down to the latest enrolled freshman. But, in a sense which all these freely acknowledge, the college's present effectiveness is his creation.

It has a great history, and great possibilities. All the more it needs the help of those who believe that a Christian college for women is a necessary part of any complete scheme of higher education.

And no one will doubt that, if he talks, not with President Harker, who is frankly a partisan, but with the heads of those co-ed colleges which might be expected to be the rivals of such an institution.

The only thing that could be better than Illinois Woman's college now is would be an Illinois Woman's college with threefold its present resources.

SERVICE STAR LEGION MEMBERS HELD SESSION

Listened With Pleasure to Address by Mr. Kolhoff, Director of Vocational Training at Jacksonville Hospital.

Service Star Legion members and guests of the Service Star Legion filled Plymouth hall Thursday afternoon. They rejoiced to welcome their President, Mrs. Frances Brown, after her illness. After the opening exercises, Mrs. Mabel Matthews Gregory, with Mrs. Stickney, her accompanist at the piano, sang Kipling's "Recessional," a most appropriate selection for a very appropriate audience. After reading and approving of the minutes and also a very encouraging report of our treasurer, Mrs. Keefe, our president welcomed the guests to our social meetings and expressed the wish that the might attend frequently.

Mr. Kolhoff director of vocational training at Jacksonville state hospital had kindly consented to tell the Service Star Legion of his work with the disabled soldiers. It proved a most interesting and instructive talk. The members had known something of his duties and success. They enjoyed most of all his own love for the week and sympathy as a man and a veteran for the soldiers in his care. He spoke of the new hospital at Elgin that "it could not be beat" and immediately added that the hospital to be opened here next June will be better, for it will have four large porches where the patients can be in the open air.

The description of individual cases, most tenderly spoken of, as well as hopefully always, and often amusing, was very instructive. He asked if any one knew of any soldiers in this community who ought to receive care that are not. No one knew of a single soldier which he said was very encouraging. He warned the ladies to be slow to believe any man in khaki who claimed that the United States was not doing anything for him. There were many of these deceivers in the land. After dainty refreshments served by our hostesses, Mrs. Bancroft, Mrs. Keefe and Mrs. Smith, the delightful exercises closed.

Publicity Committee.

The Woman's Club invites the public to hear Gertrude A. Beneker speak on "Art as a Constructive Force," at I. O. O. F. Temple, East State, 2:30 Saturday, March 10. Such a privilege should not be overlooked. 35c will be charged non-members.

CHOSE CAST FOR HIGH SCHOOL PLAY
About thirty-four of the high school senior class tried out Thursday afternoon for places in the senior play, "Come Out of the Kitchen," which will be given the third week in April, probably on Thursday and Friday, April 19 and 20. The following players were selected: Martha Strang, Maud Eva Hackett, Henry Irving, Edward Young, John Hackett, Marion Parker, Allen Kelly, Lavinia Scott, Helen Walton, Margaret Miller and Earl Hoover. Their parts have not yet been assigned. The judges were Mrs. Chester Hemphill, Mrs. Paul Thompson and Miss Manganz.

NOTICE TO TAXPAYERS
The tax books are now in the collector's office and taxes extended stand as judgments against all parties mentioned therein.

Persons paying on personal property only should pay the tax promptly and avoid trouble and expense in collection. The judgment reads as follows: "In case any person named in said books shall neglect or refuse to pay their personal tax, you shall levy the same by distress and sale of goods and chattels of such persons." Parties paying on real estate should bring their old tax receipts to save time and avoid mistakes. If paying thru the banks, leave your old receipts with your bank as soon as possible.

MURRAYVILLE B. B. TEAM GIVEN BANQUET

Murrayville Domestic Science
Club Gives Banquet For Bas-
ketball Boys and Other Guests
Thursday Evening.

A banquet was given by the
Murrayville Domestic Science
club Thursday evening in the do-
mestic science rooms of the com-
munity high school. The affair
was planned especially for the
boys who belong to the basketball
team, but a number of other
guests were invited including the
teachers of the Murrayville school
the parents of the team members
and the husbands of the club
members.

There were fifty or more in the
company which gathered about
the banquet table at 6:30 o'clock,
and the following delicious menu
was served: creamed chicken on
toast, mashed potatoes, gravy,
corn pudding, spring salad, pork-
etbook rolls, butter, fruit com-
pote with whipped cream, angel
food cake and coffee.

After the banquet an informal
program was carried out, includ-
ing community singing and a
number of impromptu talks by
various ones of the guests. All
the talks were on the general sub-
ject of school athletics and en-
thusiasm and good feeling reigned
supreme.

Mrs. W. W. Walker was the
chairman of the program commit-
tee, and at the close of the pro-
gram she presented the basket-
ball team with a 5 gold piece on
behalf of the Domestic Science
club. Capt. Harold Mawson re-
sponded in behalf of the boys and
then he and the boys gave evi-
dence of their appreciation of the
gift and of the splendid supper
served by joining in a yell for the
Domestic Science club.

The committee in charge of the
general arrangements for the ban-
quet included Mrs. W. W. Walk-
er, Mrs. H. G. Strang and Mrs. J.
H. Spencer.

The basket ball team has made
a very creditable showing during
the present season under the ef-
ficient training of Coach J. H.
Leitze, and it was because of this
fact that the club members de-
termined upon the banquet in
their honor. All present enjoyed
the evening very greatly and the
basketball boys were made to feel
that their efforts have been fully
appreciated.

RED SOX SQUAD IS INCREASED BY ARRIVALS

HOT SPRINGS, Ark., March 8.—
Manager Frank Chance's Red Sox
battery squad was increased here
today by the arrival of Pitcher,
catcher and Bill Piercy, pitcher
who joined other Boston players
in workouts in Whittington Park.

The Pittsburgh Nationals, hur-
ling corps took it easy today mix-
ing batting practice and shagging
flies with light tossing in two ex-
ercise periods.

Reb Russell surprised his Pir-
ate mates by arriving unannoun-
ced today while Babe Adams,
Falk and Kuntz also showed up.

was called off today by Stanford
because of California's proposed
use of negro boxers. It was said
the two universities had an agree-
ment not to use negro boxers and
that California has two of them
on this year's team.

SCHOOLS SPLIT EVEN IN BASKETBALL GAMES

First Team of J. H. S. Wins And
Second Team Loses — Games
Against I. S. D.

Two interesting basketball
games were played in David
Prince gymnasium Thursday
evening when the first and second
teams of the Jacksonville High
school and the Illinois School for
the Deaf clashed.

In the first game the Red and
White proved too much for the
Tigers, winning the game by a
score of 33 to 8. The contest
started off at top speed and con-
tinued so thruout the entire four
periods.

Jacksonville's basket shooters
had their eye on the basket last
night and hit the hoop from any
angle. Putman broke the ice with
a long shot from the center of
the floor. This was followed by
Harrison, Deatherage and Hunt
who shot them from every place
on the floor.

The work of Hunt at guard was
a wonderful bit of work. In ad-
dition to making two beautiful
baskets Hunt was all over the
floor and time and again broke up
the I. S. D. plays. Hopper at
the basket did great defensive
work. He stopped the I. S. D.
forwards almost at will and it was
seldom that he failed to get the
ball after a shot and pass it out
of danger. Jacksonville was with-
out the services of Captain
Hunter but Harrison ably filled
his place.

Schrader, Massinkoff and Mil-
ler did the scoring for the I. S. D.
while Massinkoff, Miller and
Crabbe did good work at guard,
tho they were puzzled by the at-
tack of the high school five.

Second Game Good

Contrary to expectations the
game between the second teams
proved more interesting than the
first team game. It also was rat-
her a surprise too, as it was
thought that the second team also
would win.

The teams proved evenly match-
ed and both were better on de-
fense than on offense. However,
both teams had lots of shots at the
hoop but were unable to make
them count.

The I. S. D. seconds displayed
a better passing game than the
first team. It used the short pass
better than we have seen it used
here this season and had the
shooting been accurate they
would have scored many points.
Rose was the star of the I. S. D.
seconds. He carried the bur-
den of the battle and carried it
well, his passing being excellent
and his work at the basket also
being good. He tossed four bas-
kets for a total of eight points
for his team enough to win the
game without any help.

For the J. H. S. seconds, Barr
and Zell scored the points. The
high seconds had many shots from
good angles and also right under
the basket but could not get the
ball in. The scores:

FLYAWAYS WIN FROM ROUTT
The Flyaways won their third
basketball game this season by
defeating Routt team Thursday
evening, the score being 8 to 1.
The lone point for Routt was
scored by Gebert. The Flyaway
team was composed of, Goody, G.
Clement, c; Mitchell, f; Strawn,
f; Milburn, g. The Flyaways

weight team in the city.

WESLEYAN WINS TITLE FROM BRADLEY

BLOOMINGTON, March 8.—
Illinois Wesleyan won the I. A. A.
C. basketball championship by
defeating Bradley Polytechnic of
Peoria tonight, 34 to 24.

The game was more hotly con-
tested than the score indicated.
Captain Rogers of Bradley kept
the visitors in the running, caging
fourteen out of sixteen foul
throws. Ware, Dunham and Oli-
ver in particular shone for the
champions although the entire
team played excellent basketball.
The score at the half was 16 to 13
for Wesleyan.

RUMORED TWO BALL CLUBS FOR SALE

NEW YORK, March 8.—Base-
ball circles had two major league
clubs on the block today—the
Boston Americans and Brooklyn
Nationals—but alto interests in
both admittedly were for sale to
the highest bidder, doubt was ex-
pressed tonight as to the pros-
pects of either changing owner-
ship at present.

Harry H. Frazee, president of
the Boston Red Sox, declined to
comment on reports reviving the
possibility that he might sell his
interests.

Owners of the Brooklyn club,
meanwhile admitted they had
been approached by representa-
tives of Edward P. Simms,
wealthy Kentucky turfman and
oil operator with an offer of
\$500,000 for their interests, but
did not appear to regard it fa-
vorably.

Charles H. Ebbets, president
of the club, who has on several
occasions expressed a desire to
sell his holdings and retire from
the game was quoted by the
Brooklyn Eagle's training camp
correspondent as saying the price
was not satisfactory. In Brook-
lyn, Stephen W. McKeever, who
with his brother, Edward J. Mc-
Keever, holds a half interest in
the Dodgers, declared emphati-
cally he would consider no propo-
sition to sell and added that
there isn't enough money in
New York to buy our share in
the club.

BABY BORN IN MOTOR CAR ACCIDENT

Detroit, Mich., March 8.—A
baby was born to Mrs. John
Cairns today in the midst of a
motor car accident. Mrs. Cairns
was being driven to a hospital
by Morton Kilsdonk, a neighbor,
when Kilsdonk's car collided
with that of Dr. Thomas Starrs.
Neither car was able to proceed,
and Dr. Carr attended Mrs.
Cairns. The baby was born in
Kilsdonk's car.

At the hospital where mother
and babe were taken later it was
reported both are doing well.

LANDIS SETTLES BENTON CONTROVERSY

CHICAGO, March 8.—The con-
trovery over Pitcher J. C.
"Rube" Benton, was settled today
in a decision by K. M. Landis,
baseball commissioner declaring
Benton eligible to play in organ-
ized baseball approving his trans-
fer to the Cincinnati Reds by the
St. Paul club and severely criti-
cizing those who brought charges
against Benton nearly two years
after the alleged irregularities
occurred.

The National League had ob-
jected to the transfer of Benton
on the grounds that he had
knowledge of the 1919 world se-
ries scandal and failed to bring
it to the attention of the proper
authorities and failed to sustain
charges filed by him against an-
other player.

The question involved the com-
missioner said was whether Ben-
ton is eligible to play anywhere
pointing out that the standard of
the National association is as
high as for the majors and if
Benton is ineligible to play with
Cincinnati he is ineligible to play
with St. Paul.

It was never alleged Commis-
sioner Landis said in his decision
that Benton has ever been guilty
of dishonest ball playing. Re-
ferring to the charges against him
Commissioner Landis said these
matters were known thruout the
baseball world in 1920 but no dis-

LEGION CENTERS ON REHABILITATION HOME

Illinois Department Exerting to Get Project Thru Legislature.

SPRINGFIELD.—The chief legislative fight of the Illinois Department of the American Legion at this session of the general assembly will be for the proposed Veterans' Rehabilitation home, according to William McCauley, former department commander and at present chairman of the Legion's legislative committee. "Our bill asks for a site of about 600 acres," said Mr. McCauley. "We are not particular about the location. All we want is that it be separate from any other institution, and that it have good farm land, part in forest, and that there be a lake or river on it."

"There we intend that the boys who suffer from the mental horrors of war shall be classified, and those who are able, sent to given work to do that will occupy their minds and bring them back to the possession of whatever degree of efficiency fate still holds for them."

That some of them can come back has been demonstrated. The veterans hospital at Elgin was established as a temporary place by the Legion. During 1922 veterans there were given the care appropriate for them, and as a result 205 of them were paroled to the hospital as mental cases by the courts.

What we have done for those men, we aspire to do for our other buddies scattered promiscuously throughout the state in civilian hospitals.

On June 15, another temporary hospital like that at Elgin will be dedicated at Jacksonville. In these two places some of the Illinois veterans can be cared for until the rehabilitation hospital is prepared. Then, from these hospitals and from all the hospitals in the state, we intend to gather our disabled buddies into the little kingdom where they will have the care they should have. There we intend to bring these men back to normal life, if it is possible.

TIDAL WAVE DIDN'T ARRIVE

PAPEETE, TAHITI.—(By A. P.)—Tahitians, but not Tahiti, experienced a reverberation of the recent earthquake in Chile when they fled to the high mountains before a great tidal wave which the wireless said was sweeping across the Pacific.

"Heavy earthquake in Chile with tidal wave, may reach you," read a private radio message received November 12, from New Zealand. The message was shown the governor of the colony but the governor reckoning the 4,000 miles of sea between Chile and Tahiti, where a wave would have ample space to spread out, thought it unnecessary to alarm the inhabitants.

Next day, however, came the press dispatches, making known the news to other residents of the islands, among them the mayor. The mayor of Papeete, being the only elective official on the island, is a sort of tribune to the people and he saw at once a chance to loom large in the eyes of his constituency.

The mayor gathered about him his soothsayers, astrologers and mathematicians, and they figured and measured and cast horoscopes about that tidal wave and finally reached the conclusion that it would strike the island with devastating fury on the night of November 15, or the morning of the 16th.

Natives heralds were sent out with big base drums to warn the inhabitants. Panic resulted in many sections. The Chinese storekeepers piled their wares into all immediate transportation and headed for the high hills where they were joined by a godly portion of the population bearing lanterns, lamps, family Bibles, eight day clocks, rocking chairs, portraits of deceased relatives and other precious possessions. Two days and nights the refugees camped in the open, scanning the horizon for the wall of water. On November 17 they returned.

What actually happened was a phenomenon of irregular tides on the evening of November 11, when the sea ebbed and flowed at intervals of fifteen minutes, five or ten times from extreme low water to above the usual high water mark. In the Marquesas Islands the sea rose 12 feet above the high water mark on the same date but no change was reported.

FARM BUREAU PREPARES FOR MEMBERSHIP CAMPAIGN

Meetings preparatory to the launching of a membership campaign for the Morgan County Farm Bureau are being held in the various towns throughout the county. Thursday afternoon a

well attended meeting was held in the motion picture theatre at Franklin. Two reels of educational pictures and a comedy were shown, and talks were made by F. M. Higgins of the organization department and George B. Kendall, the county farm advisor.

SAMPLE BALLOTS OUT.

The sample ballots for the city primary election to be held next Tuesday are now at the city hall. The polls will open at 6 o'clock in the morning. The primary promises to be a quiet affair, as there are no real contests for the nominations.

Strawn Talks About Dort

There's economy, also satisfaction, in giving your car the once-over at regular intervals, and once a week is not too often.

While engineering advances and sturdy construction have developed the modern motor car to a point where it will permit of considerable neglect, there is a limit to all things and it will prove costly to cross the dead line on the question of service.

The motorist should consider his car an investment and it is a matter of good business to take care of it the same as he does his other possessions. When an automobile is allowed to run-down-at-the-heel, the owner finds his repair bills mounting in an alarming manner.

To the average motorist some of the complicated motor cars present an unpleasant task when any service work needs to be done, but the Dort is different. Access-

bility of parts was one of the first principles built into the Dort Four and it has been more prominently continued in the new Dort Six so that the owner has more fun than hard work in keeping his Dort fit and ready.

Another feature that every motorist should consider in servicing his car is that the use of so-called "pirate-parts" shortens the life of a car and causes inconvenience and worry. Dort parts are manufactured for all models of Dort cars and under no circumstances should any other parts be used.

Quite a saving can be made and much satisfaction gained from regular inspection on the part of owner and the use of legitimate parts. There is no other short continuous motoring pleasure, and that is what every owner is entitled to, whether his car is used for business or pleasure.

A Good Living and Something Besides

With cows and a De Laval Separator, you are sure of a good living and often something besides. With cream or butter to sell, bringing in a steady cash income; with milk, cream and butter for your table; and with skim-milk to raise calves, pigs and chickens, you are absolutely safe.

And the De Laval Separator has done more than any other factor to make this so. It is the original separator, skims cleaner under all conditions, wears longer, and is easier to operate and clean than any other. We shall be glad to prove this to you. Give us an opportunity.

SPRINGER HEIRS STILL SEEKING MILLIONS

Recent Meeting Held at Chicago
Hotel to Push Claim At-
taining Half a Billion Dollars.

There is local interest in the story of the recent assemblage at Hotel Sherman in Chicago of the Springer heirs. The purpose of this gathering was to tell more about the nation wide effort which is to be made for the Springer heirs to make good their claim to the greater part of the real estate of Wilmington, Delaware.

The story of the claim, which runs to figures of half a billion dollars, reads like a feverish romance. The late Mrs. Caroline M. Duer, W. T. Brown, William R. Routt, Charles Routt and Mac Springer were among local beneficiaries of Charles Springer, who died in Ohio and left a large estate. It is claimed however that millions and millions of dollars' worth of valuable holdings belonged to the estate which had been illegally taken by various cities in the state.

It is in the hope of validating these claims and providing for distribution of the millions among the heirs that the fight to press the claim has been renewed.

The following story of the recent Chicago meeting is taken from the Chicago Tribune: PERSONAL—A CALL FOR THE Springer heirs to meet at the Sherman Hotel March 1 and 2.

MRS. MARY O. SPRINGER
An ad in the paper, and a dream of millions—not one of two, but 500 millions—brought men and women together yesterday, brought many from long distances, to sit in a room in the Sherman hotel and talk of a fortune lying just around the corner, of family lands wrongfully kept from the rightful heirs for two centuries.

It is a tale of a Stevenson or a Poe, the story of the Springer fortune. Capt. Streeter with his "Deed of Lake Michigan" fades beside it.

The Springer heirs claim nearly all of the city of Wilmington, Del.

And Mrs. Mary Springer McMahon of Cedar Rapids, Ia., the Mary O. Springer of the advertisement, was there yesterday to announce that a nation-wide organization of the heirs is forming to fight for their just dues. She has whipped into line one generation after another and will take the matter into the courts without delay.

Just how the claim started no one knows, but a mixup in the matter of a lease is given by the heirs as the cause of their loss of title.

All that is sure is that old Charles Christopher Springer, holder of a royal patent, died in 1738, leaving an estate, so say the heirs, of 1,900 acres, on which Wilmington arose. Office buildings stand on it, and street cars and automobiles whizz by there the old gentleman used to stroll.

Dr. Joseph Springer, coroner's physician, is an heir. Others from Chicago are Mrs. Cecil Ada Smith, 1346 Howard street; Tucker Springer, 234 East Huron street; Mrs. J. P. Smith, 3058 East 79th street, and Mrs. Helen Grace Woodward, 4701 North Campbell avenue. They will meet again today.

SEARCY DISCUSSES HARD ROAD PROBLEM

Talks to Kiwanians of Pending Bond Issue and Gives General Facts Concerning Road Situation in Illinois.

State Senator Earl B. Searcy of Springfield discussed the matter of hard roads in Illinois in his address before the Kiwanis club of this city yesterday. He warned the citizens not to overlook the smaller roads of the state. The speaker also talked about the early history of the state, describing the days when the Indians owned the territory and showing that the Red man contributed much to the early development of Illinois. Senator Searcy said in part:

"In working out our hard road system in Illinois, we should not pay too much attention to main routes; but should remember that there is many a heavy tax-paying farmer living on lesser road back from the main thoroughfares. These farmers have as much right to an easy access to

markets as have those on the principal roads.

"Altho I am ready to secure as much mileage as possible for good road districts in which I am interested, I doubt the wisdom of plunging the state deeper into bonded indebtedness. The most important issue before the state today is the probable floating of a hundred million dollars' worth of additional bonds. Altho no bill has yet been introduced or passed by the legislature putting this matter before the people, it is being agitated.

"The issue of this additional amount of bonds would saddle the state with \$5,000,000 interest, enough to build 2,000 miles of hard roads. We should think seriously before taking such a step in Illinois."

The bearers were: Ray Massey, Dan Survanee, Jesse Tribble, John DeFrates, James DeFrates and Harry Towers. Interment was in Jacksonville cemetery.

S. W. BAXTER CAN PRACTICE BEFORE U. S. SUPREME COURT

Samuel W. Baxter, well known attorney of southern Illinois and a graduate of Illinois college has recently been admitted to practice before the U. S. Supreme court. A news dispatch from Washington, to the Belleville Advocate mentions this fact and comments upon an unusual feature attending the ceremony.

Mr. Baxter's office is in East St. Louis but his home is in Belleville. The paragraphs follow:

For the first time in its history so far as official records disclose, the United States Supreme Court today saw two senior members of an established law firm, both old in legal experience, admitted to practice before it, on motion of a young junior partner, who has just won his legal spurs.

The senior partners were Judge David E. Keefe and Samuel Baxter, well known East St. Louis attorneys. The junior partner was Henry G. Miller, also of East St. Louis, brother of Congressman Edw. E. Miller. Although Baxter's offices are in East St. Louis he lives in Belleville.

Miller, who has been secretary to Congressman William A. Rodenberg, of East St. Louis for several years, recently announced that he would become associated with Keefe and Baxter immediately on the termination of the present session of Congress, when Rodenberg will retire.

The new law partner was admitted to practice before the Supreme Court several years ago and since that time has introduced to the tribunal all southern Illinois attorneys who come to Washington seeking admission.

CONCERT DELIGHTED LARGE AUDIENCE

Program By Illinois College Chorus and Orchestra Heard With Evident Appreciation at High School.

(By G. C.)
The annual Midwinter Concert of the Illinois College Chorus and Conservatory Orchestra at the High school last night delighted an audience which well represents musical Jacksonville in its size, appreciation and response. Mr. Sanford Hulshizer, baritone, as soloist, and four local artists assisted. Mr. Lovejoy, as director of the chorus, proved himself as thoroughly capable of directing an organization of a hundred voices—the number which constitutes the chorus—as he did the smaller organization such as the I. C. Girls' Glee club and the Elks' chorus, thru which he established a record in Jacksonville.

Increasing interest has been shown from year to year in the Conservatory orchestra, composed of thirty seven instruments string, wind and tympani, under the very capable direction of Mr. Kritch, whose reputation in this line is now firmly established. The varied and interesting musical effects brought out last evening showed the progress of the organization as a whole as well as the ability of individual members.

Mr. Hulshizer, of Bloomington, won high approval thru his rich baritone quality and unusually smooth and sympathetic tone production. It is interesting to note that he is a former pupil of Mr. Lovejoy and at present is working with Mr. Westbrook, with whom Mr. Lovejoy studied, and who will be pleasantly remembered as the soloist in the recent concert given by the I. C. Girls' Glee club. In addition to his marked musical ability, the genial, pleasing personality and easy stage presence, which characterize Mr. Hulshizer's appearance, won for him a welcome in our midst.

Miss Armstrong, a member of the Conservatory faculty, has already gained a reputation as a singer of unusual strength and fullness of tone. She gave evidence last evening of gratifying improvement in her pianissimo work, which was particularly good. She carried the contralto solo parts in the cantata with an assurance and finish that characterizes her interpretations.

Mrs. Bleck's clear, high voice ably met the demands of the difficult soprano role, both in "Hark, Hark My Soul" and in the Cantata. Her singing in the recent Glee club concert as well as on this program assures her of popularity and favor as a local artist.

Mr. Shaw, also a student under Mr. Lovejoy, made his first public concert appearance last evening as a soloist, the he has taken part in quartet work in several local churches. Mr. Shaw possesses a lyric tenor voice of wide range, and shows evidence of real musical ability in the clarity of tone and ease which he sings. "Holly Holy," from the Gounod "Sarcus" was largely dependent on the successful work of Mr. Shaw as soloist.

Mr. Hammond will be remembered as the tenor in the Elks' Quartet, which was very entertaining at their recent concert. His singing on this occasion brought a pleasant surprise to many who heard him then, for his voice is one of unusual mellowness and freedom of production, and he interprets his solos with the feeling of a genuine musician.

The work of Miss Smith as accompanist deserves commendation in every way, but especially for its sympathetic following of the director and his interpretations.

Mr. Munger, as accompanist for some of the solos in the cantata, played in his usual masterly style and musically fineness of touch.

The concert as a whole is one which reflects great credit upon Illinois College Conservatory and upon the amateur musicians who gave as much time and effort toward making the program a success.

See Harry Witwer in "The Leather Pushers," at the Rialto tonight.

MT. EMORY REVIVAL

The meeting at Mount Emory Baptist church last evening was well attended. Rev. Herman Gore, the evangelist, delivered a very spiritual sermon on the subject, "The Lord Will Provide."

Altho there have been no conversions as yet, the interest is growing each night, and the meetings are expected to be very successful.

Market Report

STOCK MARKET IS READJUSTING ITSELF

Day's total sales 1,302,000 shares.

Twenty industrials averaged 104.70, net loss .53.

High 1923 105.23; low 96.96.

Twenty railroads averaged 99.36, net loss .39.

High 1923 99.63; low 84.53.

Total bond sales, par value, \$11,523,000.

NEW YORK, March 8.—Readjustment of a weakened technical position was the reason generally given for today's reaction in the stock market. The recent sustained rise of prices particularly in certain industries in vited profit-taking and short selling which the market was unable to digest except at a sacrifice of quoted values.

Other influences which are believed to have aided the decline were the withdrawal of a stock exchange house from the Pay Taxicabs, Inc., promotion, marking up of the call money rate from 4 1/2 to 5 per cent just before the close and a sharp break in the Durant issues on the curb which was ascribed by the sponsors of the stock to be a raid by short interests.

The recession of prices which ranged from 1 to 4 points in a number of active issues was checked by the bidding up of the independent steel shares on reports of an unusually large advance in the average price of steel products which is now about \$2.75 above the 192 high established last September.

Equipments enjoyed a temporary period of strength during the week. American Locomotive established a new top of 153, but they soon yielded to selling pressure, American and Baldwin Locomotives dropping about 1 1/2 points below yesterday's final figures.

Pullman 1 1/2 and Lima 3/4.

Rails were again sluggish and reactionary.

The time money market was moderately active with loans for all maturities arranged at 5 1/2 per cent. Interior institutions continue as the principal takers of commercial paper the ruling rate for prime names being five per cent. Trading in foreign exchanges was quiet and irregular.

Bond prices generally were reactionary in sympathy with lower stock quotations; fluctuations being confined to narrow limits. United States government bonds while comparative quiet advanced slightly to bring them in line with the new government financing announced for March fifteenth.

IN MEMORY OF MRS. BECK
Dearest Friend you have left us
We shall meet on earth no more
Yet 'tis God that has bereft us
All thy sufferings now are over.

Welcome to your father's mansion
Where the flowers bloom
There is no night beyond the river
There is no death beyond the tomb.

Oh, how sweet will be that meeting
Earthly words can never declare
We shall know the blue of heaven
When we meet our dear friend there.

In the peaceful grave's embrace
But the memory will be cherished
'Till we see thy heavenly face.
—Mrs. Mary Cramer, 815 Godwin street, Peoria, Ill.

BIBLE CLASS TO MEET
The Capps' Bible class of the Grace M. E. Sunday School will hold their social meeting and supper this evening at 7 p. m. in the parlors of the church.

Because of so much sickness the meeting that was to have been held last week was postponed one week, and it is hoped that a large attendance will be present. Games and different forms of entertainment will follow the business session.

AGED GREENE COUNTY RESIDENT IS BURIED

Funeral of William P. Hitch Held Thursday at Patterson—Deceased Was Civil War Veteran.

White Hall, March 8.—The funeral of the late William P. Hitch was held at 2 o'clock Thursday afternoon at the Baptist church in Patterson. The services were largely attended and were conducted by Rev. Robert Hudson. Interment was made in Pine Tree cemetery at Patterson, where he buried a number of the nation's defenders from the Revolution to the World War, and whose memories have been for years a matter of solicitude by the man whose death we now chronicle and who for the past few years has served as superintendent of the cemetery.

Mr. Hitch came to the Patterson neighborhood when he was two years of age from Madison, where he was born January 26th, 1840, he being 83 years of age last January. He served in the Civil War as a private in Company H, 91st Illinois Infantry, from Sept. 16, 1862, until July 12, 1865. In 1882 he and Miss Sarah A. Cooksey were married, and she and their four children survive, the latter being James Hitch of Woodson, Harley, of Patterson; Edward, of White Hall, and Leta, wife of Wayne Mitchell, at home. There are six grand children and one great grand child. The Hitch home at Patterson has afforded a stopping place for tourists for a number of years, being a sort of tavern that left an abiding place in the fond remembrance of all who came within the sphere of its hospitality.

Religion and Business

Merchants Auto Show an interest in the coming revival. Business may be back to normal, but Normal is some distance from Jacksonville.

Roger W. Babson, the world's great statistician has a skull full of good grey matter. When he thinks and speaks, swivel chair warmers, listen in. Here is an extract from his book, "Fundamentals of Prosperity."

Statistics of church membership form one of the best barometers of business conditions. We have these figures charted for the past fifty years. Whenever this line of religious interest turns downward and reaches a low level, history shows that it is time to prepare for a reaction and depression in business conditions.

Every great panic we have ever had has been foreshadowed by a general decline in the observance of religious principles. On the other hand, when the line of religious interest begins to climb and the nation turns again

to the simple mode of living laid down by the Bible, then it is time to make ready for a period of business prosperity. Prosperity is the result of righteousness, rather than of material things."

Yet there are shallow thinking men who look upon the church as a sort of sentimental sideshow that adds nothing to the virile life of the community, and therefore has no right to say so in shaping its thoughts and action. It may have been a good business deal when Judas traded his Lord for sixteen dollars, the price of a slave, but it was the beginning of bankruptcy and a rope with noose in it ended it all. The business man who claims to be a Christian, and then stays out of religious invest-

HOW FAT ACTRESS WAS MADE SLIM

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat. One clever actress tells that she reduced steadily and easily by using this new form of the famous Marmola Prescription, and now, by taking Marmola Prescription Tablets several times a year, keeps her weight just right. All good druggists sell Marmola Prescription Tablets at one dollar for a case, or if you prefer you can secure them direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective. —Adv.

AUTO INN
Jacksonville, Illinois

Commencing Monday,
March 12th
and Continuing One Week
Daily, 10 A. M. to 10 P. M.

Beautifully decorated, brilliantly lighted, with a magnificently varied number of interesting exhibits, the Auto Inn, on the occasion of the Fourth Annual Auto Show and Merchants' Exposition beginning next Monday, will indeed be an inspiring sight, well worth driving a hundred or more miles to visit.

These shows are given under the auspices of the Jacksonville Automotive Dealers Association with the co-operation of the city's progressive business men. The public is well acquainted with the splendid success of previous affairs of this nature and is assured that it will not be disappointed on this occasion.

It is also well known that there is no pecuniary profit in these shows for any member of the association or for the business men interested except insofar as you may wish to purchase some of the wares shown.

The first object of these shows is social and the offering of clean and interesting entertainment and diversion following the more or less shut-in months of winter.

The show will be open daily from 10 a. m. until 10 p. m., and there is no admission charge.

Every evening, for those who delight in dancing, opportunity will be afforded on the upper floor. These dances will be under the direction of Mr. and Mrs. O. Spaulding. Music will be in charge of Warfield Brown, Jr.
